SUMMARY

IT graduate who picks up new tools fast and ships things that work. Completed an HCL Tech AI-LLM Developer training program with a production-ready RAG chatbot as capstone — also built a full-stack agricultural platform and automated data pipelines. Holds Alteryx Designer Core certification with 6 additional micro-credentials spanning ML, data preparation, and transformation.

SKILLS

Languages: Python, HTML/CSS, SQL (MySQL)

AI & ML: LLM Integration, RAG Pipelines, Llama 3.3, Groq API

Frontend: Streamlit, custom HTML/CSS components

Data & ETL: Alteryx Designer (Core Certified), ETL automation, data preparation, transformation & manipulation

Business Skills: Data Analysis, Customer Service, Relationship Management, MS Excel, Communication

Dev Tools: Git, GitHub

EXPERIENCE & TRAINING

AI-LLM Developer — Skill Training Program — HCL Tech

Jan 2026 – May 2026

- Built the Employee Onboarding Assistant as the capstone — an AI chatbot that pulls answers from company PDFs in under 5 seconds using Llama 3.3, Groq API, and a RAG pipeline.
- Designed HR-friendly PDF ingestion layer so teams can drop in updated policy documents without touching code; bot picks them up automatically.

Data Analytics Intern — Medi-Caps University

Jun 2025 – Jul 2025

- Built automated ETL workflows in Alteryx Designer that turned messy raw datasets into clean, structured outputs.
- Worked end-to-end across data ingestion, transformation, and preparation — covering the full pipeline from raw source to analysis-ready output.

PROJECTS

Employee Onboarding Assistant

Technologies: Python, Streamlit, HTML5, CSS3, Groq API, RAG, Llama 3.3, PyPDF

- Chatbot enabling new employees to ask questions instead of digging through policy PDFs — most responses under 5 seconds.
- RAG pipeline with Llama 3.3 and Groq pulls answers from real uploaded documents; HR drops in a new PDF and the bot picks it up automatically.

Kisaan-Sahyog

Technologies: HTML, CSS, JavaScript, Python, Flask, MySQL

- Full-stack web app for farmers with 5+ features: crop planning, live market pricing via external APIs, and image-based disease detection.
- Crop recommendation module using soil type and climate data; pre-trained image classifier for plant disease diagnosis — demoed live to faculty judges.

EDUCATION

B.Tech — Medi-Caps University

2026 CGPA: 6.79

Higher secondary school(12th) —Aaditya vidya vihar, Khargone

2021 Percentage: 82

High school(10th) —Aaditya vidya vihar, Khargone

2019 Percentage: 89.2

CERTIFICATIONS

Alteryx Designer Core Certified + 6 Micro-credentials — Alteryx May 2025

Data Analytics Job Simulation — Deloitte Forage 2025

AI-LLM Developer Program Certificate — HCL Tech 2026
